

Model	Superlift MX2024 A51
Capacity	1700kg or 7 Persons
Platform dimensions (L x W)	5.10m x 1.40m
Max lifting height	200m
Speed	12m/min
Height of mast section	1.5m
Weight of mast section	55kg
Tie spacing (Max)	10m
Mast top	3m
Motor capacity	2x 7.5kW
Rated supply required	32 Amp
Electrical supply (V/Hz)	415 / 3 / 50
Control voltage (V)	230

## Summary

The Bocker MX2024 A51 is a robust and versatile hoist, offering the largest platform in the fleet and can be configured to carry passengers and materials, with a total capacity of up to 1700kg or 7 persons.

The dual mast system allows this machine to reach a higher, allowing for further versatility. The compact space-saving design allows for a total of 5.10m x 1.40m of floor space.

## Product Advantages

- Variable ties interface directly with the building or scaffold
- Payload of 1700kg (evenly distributed) or 7 persons
- Twin mast design for reduced tie and base loading
- Mechanical and electrical locking mechanisms
- Dual controls designed for ease of operation
- Robust construction & fully galvanised
- Operating height of up to 200m
- Automated lubrication system
- Flexible modular construction
- Operating speed of 12m/min

Single Configuration
