

Model	Superlift MX624
Capacity	650kg or 4 Persons
Platform dimensions (L x W)	1.70m x 1.40m
Max lifting height	200m
Speed	12m/min
Height of mast section	1.5m
Weight of mast section	55kg
Tie spacing (Max)	6m
Mast top	3m
Motor capacity	5.5kW
Rated supply required	16 Amp
Electrical supply (V/Hz)	415 / 3 / 50
Control voltage (V)	230

Summary

The Bocker MX624 is a robust and versatile hoist and can be configured to carry passengers and materials, with a total capacity of up to 650kg or 4 persons.

The compact design offers a modular platform, with a single mast providing convenience on site and allowing tight-spaced installations without compromising on performance. There is also a C gate option available as well, allowing for further versatility and to allow your needs on site to be met.

Product Advantages

- Variable ties interface directly with the building or scaffold
- Payload of 650kg (evenly distributed) or 4 persons
- Mechanical and electrical locking mechanisms
- Dual controls designed for ease of operation
- Single mast design for reduced footprint
- Robust construction & fully galvanised
- Operating height of up to 200m
- Automated lubrication system
- Flexible modular construction
- Operating speed of 12m/min
- C Gate option also available

Single Configuration
