

Model	STROS NOV 4050
Capacity	4000kg or 30 Persons
Platform dimensions (L x W)	5.00m x 3.00m
Max lifting height	350m
Speed	40m/min
Height of mast section	1.5m
Weight of mast section	140kg / 165kg
Tie spacing (Max)	15m
Mast top	15m
Motor capacity	4x 11kW
Rated supply required	150 Amp
Electrical supply (V/Hz)	415 / 3 / 50
Base Threshold Height	450mm

Summary

The STROS NOV 4050 is an efficient and reliable hoist with time tested longevity and durability achieved through the use of high grade materials and components.

With a payload of up to 4000kg, this hoist can be easily loaded with a multitude of materials and the spacious size of 5.00m x 3.00m provides plenty of room for supplies. With one of the largest capacities in our fleet, this hoist is ideal for large sites requiring a flexible option for moving both personnel and materials.

Product Advantages

- Payload of up to 4000kg (evenly distributed) or 30 persons
- Up to 15m vertical tie spacings
- Programmable control systems/ precise landing approach
- Mechanical and electrical locking mechanisms
- Robust construction & fully galvanised
- Operating speed of up to 40m/min
- Operating height of up to 350m
- Frequency control drive train
- Overload protection
- Modular design
